

LIVINGSTON'S LINES

STEVE AND PAM LIVINGSTON, A/G MISSIONARIES TO THE WEST INDIES

Merry Christmas from the West Indies!

Just before our Fall semester started we were hit by Hurricane Irene. We sustained winds of over 100 mph. A new roof was put on the missions house last May by a team. They did a great job because we only lost a few shingles, which were replaced. The house withstood the hurricane well. We were without electricity for a few days but we were blessed to have a generator, which was purchased with funds partially provided by Lenexa Christian Center, Lenexa, KS. Some of the other islands were hit much harder than our island.

We like our students to enjoy their classes. In this photo one of our female students gets into the role when presenting her report on Athanasus in her Church History I class. Prof. Neil Hamilton stands beside her.

Our Fall semester passed by quickly and came to a close in early November but we are not through with teaching for the year. We offered two concentrated classes after the Fall semester was over. Rev. Steve Puffpaff, missionary to Jamaica, taught Apologetics in early November representing the Caribbean School of Theology.

Rev. Steve Puffpaff

Rev. Bill Woods, pastor in Florence, CO, will be teaching Computers for Ministry for us. He will be here from Nov. 28th—Dec. 9th. His wife, Paula, will also be coming with him.

Rev. Bill & Paula Woods

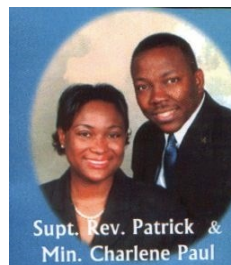

In late October we were blessed with ten donated refurbished laptop computers and a new video projector for our Bible college. This will enable us to effectively hold computer classes. In the past we were not able to teach these kind of classes due to a lack of computers. They were provided with the help of Rev. Harold Suggs, missionary to Guyana.

Prayer Request: Please pray for Steve's family. Steve's Dad (88 in Jan.) has had Alzheimer's for eight years. He broke his hip earlier this year and needs to have hernia surgery soon. His mother & sister are having very challenging times in caring for him.

SUPERINTENDENT'S WIFE RUNS FOR OFFICE

Our superintendent and his wife, Rev. Dr. Patrick and Charlene Paul, have a great burden for the islands and they have an inspiring vision for how to improve conditions for the people. A new political party has been formed here and Charlene Paul has been asked to run for

minister of Parliament from their district.

Supt. Rev. Patrick & Min. Charlene Paul
